4. CONSIDERATION: Adoption of the FY 2022/2023 District Budget

General Manager Sicke reviewed the proposed Budget for Fiscal Year (FY) 2022/2023, which began May 1, 2022. Sicke introduced the Budget as the District's planning and financial control document.

Sicke reported the proposed FY 2022/2023 Budget was prepared by staff and reviewed and recommended by the Board's Finance Committee. Sicke detailed the primary difference between FY 2021/2022 and FY 2022/2023 (Budgets) by highlighting the special items of interest, along with noting the significant decrease in water sales due to the drought and lack of an irrigation season in 2022. Sicke commended staff's efforts to solicit outside service arrangements with partnering agencies to lessen the budget deficit; approximately \$300,000 of outside service activities was estimated for the fiscal year, and staff plan to continue to offer District services to the community for the entirety of the fiscal year. Additionally, Sicke discussed the potential to use the District's reserve *Infrastructure Funds* (\$3.61M) for completing smaller capital projects to continue maintenance of the canal system during an optimal time (when the canals are dry).

Director Mayer stated that the integrity of the budget will work if we're redirecting staff to capital projects and appropriately documenting the time, improvements, and money spent in completing those projects. Additionally, Mayer stressed the importance of having a new revenue structure in place before the next fiscal year.

Director Kimball appreciated staff's level of creativity and relationship building activities in asking the community how we can support.

Director Tucker suggested that the Finance Committee consider formally establishing a Capital Fund, and formally documenting Depreciation as Capital Outlay.

M/S/C adopted the District FY 2022/2023 Operations and Maintenance and Capital Budgets.
